DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 28 February 2005 has been entered.

Allowable Subject Matter

2. Claims 1 – 41 and 62 – 80 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance: Wang et al. in the U. S. Patent 6,099,662 A substantially discloses the claimed invention. However, Wang does not disclose, teach or suggest brushing the CMPed surface after the CMP step. In fact, Wang teaches that brushing will damage the polished surface. Instead, Wang teaches a series of spraying techniques to clean the surface. Wang also does not mention drying the surface prior to any of the spraying steps.
4. Hall et al. in the US Patent Application Publication US 2004/0058546 A1; substantially teaches the claimed invention except for brushing the surface after the polishing step and also

Hall dries the surface after the spraying step. Hall is silent on the brushing step and instead just rinses the surface with deionized water prior to spraying with a high pH solution; afterwards the surface is rinsed again and dried. For the reasons stated above the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
